OUR STORY

Crafting premium outdoor experiences

At the heart of OUTTANS is a commitment to excellence. Quality is not just a feature. It is a promise. Our journey began with a simple idea: to craft steel picnic tables that go beyond the ordinary, combining strength, style, and long-term durability. Each product reflects our commitment to delivering high-value outdoor furniture that lasts.

ADA-Compliant Design Included as Standard

Accessibility is not an upgrade at OUTTANS. It is built in. All 46 inch round and square tables, as well as all rectangular tables, are designed with ADA-compliant configuration included as standard. In the commercial outdoor furniture market, ADA accessibility is often an optional modification. With OUTTANS, it is integrated directly into the structural design.
